CONTAINER GROWN STOCK

Over 100,000 plants to choose from. Evergreens, Evergreen Shrubs, Shrubs, and Trees.

CONTAINER STOCK AREA

One half of our container stock is here. The other half is across the road to the left, over 100,000 plants on hand.

BLOCK OF EVERGREENS

Looking East from State Route 4

CONTAINER GROWN STOCK

All stock has been grown in the can and not merely established for a few weeks or months.

We are proud of our Container Growing Department. We invite you to inspect it anytime. No advance notice is necessary to pick up any of this stock. Dave Kocur will show you his department, take your order for later delivery, or load your truck on the spot.

Transportation arrangements can be made at reasonable charges for full loads, and cans work well with B&B stock on part loads.

Five cents per plant discount for quantities of 300 or more of a variety.
